A Riot of Fun and Thrills!

Coming Next Wed., Sept. 22nd

"The Light of the  
Western Stars"

By Zane Grey.

## Liberals Again in Control Of Canadian Parliament

Locally but little interest was taken in the election on Tuesday. At the Champion poll the vote stood Garland 64, Scratch 42. In the adjoining country polls the vote was also very light. Following is the latest summary of the result:

	Lib.	Cons.	Prog.	Lib.	Prog.	U.F.A.	Lab.	Ind.
British Columbia	1	12	0	0	0	0	0	1
P. E. I.	3	1	0	0	0	0	0	0
Nova Scotia	2	12	0	0	0	0	0	0
New Brunswick	4	7	0	0	0	0	0	0
Quebec	60	4	0	0	0	0	0	0
Ontario	26	53	2	2	0	0	0	0
Manitoba	4	0	4	7	0	2	0	0
Saskatchewan	17	0	2	2	0	0	0	0
Alberta	3	1	0	0	11	1	0	0
Yukon	0	1	0	0	0	0	0	0
Total	119	91	8	11	11	3	2	

## Millinery Stock Is Attractive

Those interested in millinery should see Mrs. Theriault's display while the stock is new and fresh. Small and large hats are popular this season, and the new shades are most beautiful. Special provision is made for ladies requiring large head sizes and matrons are also specially carried here.

Materials are rich in the new wood shade combination of velvet, silk, satin and gros grain. The large poke shapes are very popular and black hats never become back numbers.

## Here's a Challenge

Here's a challenge: See "The Bat," which comes to the Champion theatre Friday and Saturday, and if you can fathom the identity of the title character before the final scenes, you are one in a million. For "The Bat," both a stage play and as the generation's outstanding mystery melodrama, has baffled millions of people throughout the world. The cinema version of the Mary Roberts Rinchard and Avery Hopwood stage success was produced by Roland West, genius of screen thrillers.

W. I. Constituency Conference, Monday, Sept. 27.

## Flower Sunday Very Popular

Flower Sunday in the United Church on Sunday last, under the auspices of the Ladies' Aid, filled the church to the doors. The decorations were lavish in the extreme and the flowers were beautiful. The children who took part of the service excelled themselves for the occasion, and Mr. Hunt's discourse was appropriate.

## Williamson Horses

### Win at Brooks

At Brooks, on September 6th, E. Williamson's entry "Utellem" was first in the maiden race, capturing the Calgary Brewery cup. He also took second in the relay race, H. Kavanaugh riding in both instances. The competition was very keen, there being ten entries from Calgary stables.

The W. I. have appointed committees and are busy preparing for the constituency conference, which takes place in the church on Monday, September 27th.

Mr. and Mrs. L. J. Adams left this week for a trip to the northern part of the province. They will spend two weeks in Edmonton.

## A Wonderful Work Shoe!

LIGHT  
PLIABLE  
STRONG

With the new "Panco" Sole.

Guaranteed to outwear any leather sole  
2 to 1!

B. M. ROBERTS

Subscription \$1.50 per year, payable in advance.

## ADVERTISING RATES

Legal advertisements, 15 cents per line for first insertion, 12 cents per line for each subsequent insertion.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50 cents for first insertion 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, SEPT. 10, 1920

## NOTES AND COMMENT.

The election is over and the result assures fairly stable government for the next five years. It may not be the government you preferred, but the certainty that one party will be in a position to carry on the business of the country will cause a feeling of relief everywhere. Regardless of political affiliations no one wanted a repetition of the last session's conduct of the intervening regime. There are enough groups in the new house to please even H. W. Wood, and the coming session of parliament should decide to a considerable extent just how valuable small groups are.

The increased telephone rates are naturally not proving very popular. There is considerable expression being given to the opinion that the urban rates are being raised to cover the loss on rural lines, and it is very doubtful if this system could be carried very far with a beneficial effect on telephone revenues. Everyone was paying all he should for his telephone under the old rates. It is the dashed end of the traffic that causes the deficit and the new rates simply make the actual contributors to telephone revenues pay more for the other fellow's use of it.

While the damage to the wheat crop may vary considerably in different fields, there is no getting away from the fact that it is bad enough in the best fields, and the returns in cash will be away below what was expected two weeks ago. Still, there will be a lot of wheat that will realize a lot of money. It is the wheat to the producer that is inclined to disappear.

A new variety of wheat which has been named "Reward" is expected to give better results than either Marquis or Garnet. It is some ten days earlier than Marquis and measured bushels weighed sixty-six pounds. Further tests will be made at the Ottawa Experimental Farm before this wheat is distributed to the farmers.

Another bomb has been thrown at Mussolini. There may be more virtue in this bomb throwing than is generally suspected. Perhaps if someone could be induced to throw an occasional bomb at officials in this country it might wake some of them up.

Merchants, farmers and harvest help have had a very trying time during the past three weeks, and prospects of threshing operations being possible in two or three days are very welcome. The resumption of work and the getting of money from the crop in circulation will relieve a situation which has become decidedly embarrassing.

## PUBLIC INSTITUTIONS

### Galt Hospital, Lethbridge

First-class Hospital Service at reasonable rates.

Private, Semi-Private, and Public Ward accommodation for surgical and medical cases.

Separate Case Room for obstetrical purposes.

X-Ray, Bio-Chemical Laboratory, and all modern hospital facilities controlled by fully trained operators.

Registered Graduate Nurses in charge of each floor.

Under direct supervision of Provincial Department of Public Health affording maximum protection to public.

School for nurses.

Inspection invited. Write for full particulars. Enquiries willingly answered.

## High River Presbytery Meeting

The Presbytery of High River met in the United Church hall, Cayley, on Wednesday, the 8th day of September 1920. The entire day from ten o'clock in the forenoon to five o'clock in the afternoon was spent in considering the work, deciding on the 10th of September, how best to accomplish it. Considering the condition of the roads and the calls upon the ministers to conduct funeral services, a very good representation of presbyteries was present.

Mr. Kidd was asked to act as presbyterial chairman in the absence of Mr. Watber, who since our last regular meeting has moved into another Presbytery. After the opening exercises and the reading of the minutes the Secretary brought up for consideration the method of relation according to which the chairman should be selected for office, and suggested that suitability of active ministerial service in the Conference of Alberta should be the basis on which men for the office should be chosen. That no man should hold the office for more than one year, and that every man elected by Presbytery to the office of Chairman of Presbytery should be recommended by Presbytery as one of its representatives on the Settlement Committee for the year following the Conference held during his term of office. And further that the Secretary be required to keep a regular list of all pastors in the Presbytery in order of seniority as presbyter in Alberta. This was ultimately agreed to, and Mr. F. W. Locke of Nanaimo, being the longest in the list in the Province, so far as this Presbytery is concerned, was elected chairman. Mr. McNichol, of High River, was our United as Secretary.

Both Superintendents were present and dwelt at length on the difficulty of securing ordained men for such fields as Cannanburg, Turner Valley, etc. It is probable that Cannanburg and Staveland will be settled in the near future, but the disappointments are so many that one hesitates to speak with confidence.

The most of a church at Blackie was considered at length. A request for a grant was considered but no hope could be entertained for that in an old organized field. Grants are given only in new or very exceptional conditions, to new mission fields. A house of worship in a town is only given by our Boards to congregations who, according to their ability or as the Circumstances, even beyond their fields, expended out of their pockets to the needs of the community around them. A good church is certainly a need in Blackie. A grant need then anything else of a material character. The wonder, to thoughtful men around about for a long time, has been that the men doing business in the community and others as well, did not long ago realize the necessity for such an institution, and least the project along. A church to any community is a greater business getter than any other institution in it, and yet very few people seem to realize it. Encouraging reports were heard from Staveland and from the foothills. A religious census of all the territory within the Presbytery was suggested upon. The new Outlook was strongly commended to all the families of the territory. The union accident and with by Rev. Mr. Bonneworth, who forced retirement from the work of the ministry for a year at least, and the need of his family under the circumstances, was presented by Presbytery by the Secretary, and an appeal made on his behalf.

Mr. Abbott was heard at length on religious education. The work of religious education is receiving much greater consideration today than ever before, and greater use is being made of the services of the young to our churches than in the past. Mr. Wilkinson is convener of the maintenance and education fund, called the attention of ministers to the amount expected from the various congregations and urged immediate action that there may be nothing lacking when the hour strikes for the closing of the books. Any person requiring any information, or any help in raising the fund, should apply to Mr. Wilkinson at once. Over seventy per cent of this fund is spent in Home and Foreign Missions.

The following is a list of the standing committees for the year 1920 and 1921:

Religious Education—Rev. B. W. Dalgleish and Mr. Geo. E. Mack, Conveners. Mrs. Babb, Children's Leader. Mrs. Burwash, Girls' Leader. Mr. W. Zimmerman, Boys' Leader. Miss ———, Ladies Aid. Mrs. Y. S. Moser, Ladies Aid. Hurd, Silvan Hurdall, Mr. Hallett, Hurdall, and Miss Pearl Gehan.

Religious Census—Rev. W. McNichol and Rev. J. N. Wilkinson.

Colleges—Rev. J. N. Brunton, Rev. G. W. Langille and Mr. J. C. Loree.

Social Service and Evangelism—

THE CHRONICLE, CHAMPION, ALBERTA.

# IT'S HERE McClary's Furnacette!

Built like a furnace, yet handsome as a piece of furniture. They take the cold air off the floor and expel it as hot air, thus creating a perfect circulation which is the secret of successful heating. Will heat six rooms perfectly. When you buy McClary's you buy only thoroughly tested, proven and quality goods.

Call and Inspect It.

## Full Steam Ahead

Within a few days of the writing of this article the electors of Canada will journey to the polls in order to select their representatives in a new House of Commons and thereby to determine the political complexion of the Government. Before this article appears in print the verdict of the ballots will have been rendered.

Whatever that verdict may be, and at the time of writing it is very decidedly in doubt, it is to be hoped that it will be sufficiently decisive one way or the other to give the successful party a fair working majority in the next Parliament. It is in the interests of Canada that stable government be re-established and unquestioned the great majority of the people wish it.

Concurrent conditions throughout the Dominion are very satisfactory at the present time. Business is good and promising to be better, industry in all its branches is active, trade is rapidly expanding, and increased prosperity is everywhere apparent. What Canada now requires to not only maintain but to further advance these conditions, is a removal of the onerous burden of taxation in government which has existed as a result of the stalemate in Parliament.

A young country like Canada can ill afford to "dilly-dally" at any time, but at this time is such a policy, or rather lack of policy, quite as dangerous as in any of the other periods when decision and vigorous aggressive action are necessary to take full advantage of the flowing tide.

Quite apart from all partisan considerations, or whether Mackenzie King or Arthur Meighen leads the Government, there are certain policies which the present and future governments should be adhered to and further developed. They may well constitute fundamental planks in the programme of all Canadian Governments, and it is to be earnestly hoped that a Government with no programme, but which is only a party machine, will be defeated.

First, the creation of such a Government, both parties might well unite to give effect to them.

In the first place, the policy which has been developed during the past few years, and for which Mr. Robt. Borden deserves great credit, of negotiating trade arrangements with various countries should be persevered in. The present activity in Canada's manufacturing industries is the direct outcome of this policy which has resulted in opening doors and creating new markets abroad for Canadian goods. It is not a protective tariff designed to shut foreign-made goods out of Canada that has brought present prosperity to manufacturers and the laborer they employ, but the development of an export trade which has enabled the Dominion to export its goods to a favorable balance of trade amounting up to the hundreds of millions of dollars. Last year, for the first time in Canada's history, more manufactured goods were exported from Canada than were imported. This record should be maintained, and the foreign market margin slightly increased. It can be done through the development of foreign markets, and the making of mutually advantageous trade agreements whereby such markets will be opened to Canada.

Secondly, unrelenting attention should be devoted to the question of immigration. Close and expert study of every angle of this large subject should continue without any interruption, and necessary legislation passed, appropriations made, and efficient administration as free as possible of red tape provided, all to the end that an ever increasing stream of settlers may be located here to till the fertile agricultural lands and develop the many other resources of natural wealth of which the Dominion is so rich. There is no room for, and no time for, party selfishness in dealing with this country's great nation-building programme.

While Canada must continue to raise a large revenue for the Federal Government, in order to meet and discharge our war obligations, further reductions in taxation should be made so as to relieve the individual taxpayer and release money for profitable and productive investment. The increased buying power of the people following tax reductions, the added momentum given to business and in all lines of industrial activity, resulting in more employment, will, in the final analysis, so speed up the business of the whole that the Government will receive quite as large a revenue in the aggregate although each individual contribution will be smaller.

There are other matters calling for attention and delicate action, but these three outstanding subjects of national importance should not be neglected no matter what the complexion of the next Parliament and government may be. Furthermore, the Government should be called upon to give their policies into early effect. Lastly, the Government, whether under Mr. King or Mr. Meighen, should be accorded support by the people in its whole in a united endeavor to give stability in government, sound administration, and vigorous action along broad lines of Canadian advancement.

### Made First Aeroplane Flight Across Channel

#### Frenchman Makes Trip Again This Time As Passenger

Leont Heurt, who, in July, 1909, made the first air flight across the English Channel in a little 25-horsepower motor monoplane, has crossed the channel again by air, but this time as a passenger in a 12-horsepower air liner. It was his first flight across the channel since his historic one of 1909.

M. Heurt has flown in France frequently since his eventual achievement of 1909, but less always traversed by steamship between his frequent trips to England.

When the powerful rainy day came, however, he was forced to land.

Mrs. and Mr. Heurt were not accompanied, yet women jump at both.

A dead man's use of as much ink in the world as a lady one—she takes up her room.

W. N. U. 1616

## Discovered High Explosive

Lloyd George Feels Helped Britain

Former Premier David Lloyd George, at the summer school at Bangor, Inter-Jewish Conference, at Bangor, revealed that Dr. Chaim Weizmann, Zionist leader, helped to save the nation during the war by his discovery of an essential ingredient of high explosives.

"When I asked what honor I could pronounce on him for his exploit," he said, "I would like you to do something for my people," Lloyd George said.

David George said, saying that no class responded more readily to the call than the Jewish people in every country. He declared the Jews are true to the country in which they dwell and that it was a great mistake to imagine that they were not. He said that the Jewish people were internationalists and that they were not nationalists.

Want the Right Kind

According to the Bishop of London there are a million and a half of the right sort of people in this country who are ready to come to Canada as soon as assured of a welcome. And, to doubt, Canada will furnish food and goods, as soon as it is assured that they are the right kind of people.—Woodstock Standard-Review.

A dead man's use of as much ink in the world as a lady one—she takes up her room.

## THE CHRONICLE, CHAMPLION, ALBERTA

A Ruby Of Great Value

The Poisons We Love

Human Image Is Seen In Jewel Found In India

Red rubies, sparkling like drops of pignon's blood, are beautiful jewels. But when one discloses, inside, a portrait made not by human hands, but by nature, it is unique and of surpassing value. Such a ruby has been found by a member of the Bengal Legislative Council. The portrait is said to be a gift of God, and the jewel assumes an importance that cannot be estimated in terms of cash.

The stone the best large, has inside the outer surface, deep down below a scarlet cloud, appears a tiny image of a man, divine in white, with a darkish brown face and deep brown eyes. The man is seen wearing a white 'pavane' (part of the national dress of the Hindus) and the rest of his body is covered by deep folds of a garment of silken white.

The more closely the gem is examined the more the image comes out in detail. The ruby was sent to the director of the geological department in Calcutta, and he pronounced it a portrait of high value. He could not explain the portrait and so called it a 'face of nature without a parallel.'

For Aches, Pains, The Safe Home Remedy

## NERVILINE

When sudden sickness comes, when the kiddies come in with colds, their little shivering throats, their coughing, cold, creates always for you some serious trouble. It is a terrible thing. If it's Croup, Cough, Hoarseness, Nerviline is a wonderful friend. It holds your nerves and soothes the throat. For young and old, it overcomes the most ill effects of colds, coughs, and hoarseness, and makes you feel better than ever.

Unique X-ray It Can Penetrate Layer Of Lead

A description of the newly-discovered X-ray which has been used in the treatment of cancer, and the completion of which the institution is now engaged. These rays are 'invisible,' but the X-rays can penetrate metal. A thin sheet of lead, however, will stop X-rays. Millions of rays will travel through a layer of lead as fast as light.

"It seems," says a bulletin of the Smithsonian Institute, "that this new X-ray is different from the old X-ray. It does not originate on the earth, but comes into us with the velocity of light from the great unknown beyond the atmosphere. Probably they are formed by the breaking up of the atoms which compose the stars. No one can yet foresee by what remarkable means they may come to serve us."

When Parady, in 1931, demonstrated before the Royal Society that all that was necessary to start an electric current was to move a wire across the pole of a magnet, a woman in the audience asked him what use the experiment was. The discovery, as we know, formed the basis of all the modern electrical machinery. Parady replied:

"Madam, will you tell me of what use is a new-born babe?"

"Parady's babe has grown up into a giant now. So it may prove our Midday's."

## Breaks French Typing Record

The French record for rapid typing has been broken by Miss. Plan, a typist employed by the League of Nations at Geneva. Her speed was 84 words a minute, striking the keys at the rate of 10 times a second for one hour. The old record was 71 words.

A saddle worth \$5,000 is owned by R. Garcia, Elko, Nev. About \$1,000 worth of gold and silver is worked into it.

## Believes Leprosy Is Curable Was Western Pioneer

Medical Secretary to Leprosy Mission, Optimist About New Treatment

Dr. Robert G. Cochran, who is 30 yet 34, has just returned to England after a 4,000 mile tour of the world's principal leprosy stations.

In his capacity as medical secretary to the Mission for Leprosy, he has recently visited every center in Burma, India, Siam, Borneo and the Philippines.

For four months Dr. Cochran has been among lepers at one of the stations, spending his time attending to them and investigating their cases. He is very optimistic about future.

"If you can get them early on in their trouble," he said, "many patients can be treated as outpatients. In all these early cases there is a great deal of hope. Medical advancement in treatment of the disease has been considerable in the past six years. It is necessary to recognize the disease early, then with efficient treatment and the segregation of old cases, the scourge will be put under control."

Once victims realize that, with early treatment the disease can be arrested, there will be no difficulty in getting them to come forward to the stations. By the end of this century leprosy should, with the help of right means, be considerably reduced."

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. It is impossible for the sufferer to escape exhausted and finally, though hardly treated, is left in unending dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedy. It immediately relieves the restricted air passages as though a hand could "loosen" it. It is sold by dealers everywhere.

Guaranteed! Mrs. Stouffville—"Did you bring that reducing soap? I told you to get one?"

Her Husband—"Yes, and the directions say to apply to your clothing and rub briskly on a washboard."

A Lonely Queen

Jugoslav's Queen is Called Timid and Melancholy

Queen Maria of Yugoslavia, daughter of Queen Marie of Romania, and youngest reigning woman sovereign in the world, is a timid and melancholy young woman.

At the age of 20, she is the ruler of 1,000,000 persons, but apart from them by her ignorance of the language. From the time she was a girl, mother trained her in all modern queenly duties, but she could not teach her to overcome the timidity which now appears to make her lonely and isolated.

Twenty Lynchings in U. S. This Year

Twenty lynchings have occurred in the United States so far this year, according to the National Association for the Advancement of Colored People. Two of the victims were white.

A train of sixty-two freight cars will be required to transport the bedding for the world's largest hotel, now building in Chicago.

Man who appeared in a Toronto court charged with stealing a drum didn't get a chance to beat it.

## WORLD HAPPENINGS BRIEFLY TOLD

Official statistics show that 2,771 persons have already been killed this year in 65 United States cities as the result of motor accidents.

After having been in Brazil for several weeks giving lectures and to other cities, Miss Curle, co-discoverer of radium, sailed for her home in Europe.

What was apparently a meteor started the north midlands counties of England when a mysterious explosion was followed by a sudden blizzard of light.

Professor Wilk, a Polish astronomer, reports that he has discovered a new comet of the sixth class. Prof. Wilk last year discovered the VII. perle comet.

At their home in Ottawa, Richard W. S. Fielding and Mrs. Fielding recently celebrated their golden wedding anniversary. A large number of congratulatory messages were received.

Mrs. Annie Clarke, aged 90, is receiving the plaudits of all Donegal. She completed the mowing, tying and stacking of an acre of oats, the bulk of it six feet high, completing the task in a week.

Preparations are being made at Tokyo's first cat and dog cemetery, where, perhaps the bodies of more than 20,000 pets, for the annual national ceremony at the end of the year, prayers are said for their spirits.

United States citizens settling in Canada in the last 12 years brought with them cash and effects to the value of \$142,470,553, according to the department of immigration and coast guard.

The government is now investigating the reindeer industry in Alaska, with the object of introducing the animal into the southern part of Mackenzie district, which is the home of a considerable portion of Canadian Eskimo population.

Four hundred Monmouths are expected to reach the west before the snow flies, according to Bishop David Towers, chairman of the Monmouth exhibition board and of the management board. Most of the newcomers will be placed on the land immediately on arrival.

Drivers of buses and street cars in Paris recently had grievances to air. Forbidden by their leaders to strike they showed their feelings by driving their vehicles at a snail's pace. Whenever a pedestrian desired to cross the street the driver would stop, remove his cap and bow.

## A De Luxe Street Car

London Street Cars Are To Be Like Limousines

Their utility having been brought into doubt, London's street cars may still be saved by luxury. By way of experiment the London corporation recently put a de luxe street car in operation along the Thames embankment. It contained seats as comfortable as those of a limousine. Special attention was paid to the lighting so as to enable passengers to read their newspapers without straining their eyes.

So popular has the car proved with passengers that the council has decided to order 100 more of the same kind.

## Ambitious Plan For Empire Broadcasting

If Adopted, Audience of Half-Million Would Benefit

Official statistics show that 2,771 persons have already been killed this year in 65 United States cities as the result of motor accidents.

After having been in Brazil for several weeks giving lectures and to other cities, Miss Curle, co-discoverer of radium, sailed for her home in Europe.

What was apparently a meteor started the north midlands counties of England when a mysterious explosion was followed by a sudden blizzard of light.

Professor Wilk, a Polish astronomer, reports that he has discovered a new comet of the sixth class. Prof. Wilk last year discovered the VII. perle comet.

At their home in Ottawa, Richard W. S. Fielding and Mrs. Fielding recently celebrated their golden wedding anniversary. A large number of congratulatory messages were received.

Mrs. Annie Clarke, aged 90, is receiving the plaudits of all Donegal. She completed the mowing, tying and stacking of an acre of oats, the bulk of it six feet high, completing the task in a week.

Preparations are being made at Tokyo's first cat and dog cemetery, where, perhaps the bodies of more than 20,000 pets, for the annual national ceremony at the end of the year, prayers are said for their spirits.

United States citizens settling in Canada in the last 12 years brought with them cash and effects to the value of \$142,470,553, according to the department of immigration and coast guard.

The government is now investigating the reindeer industry in Alaska, with the object of introducing the animal into the southern part of Mackenzie district, which is the home of a considerable portion of Canadian Eskimo population.

Four hundred Monmouths are expected to reach the west before the snow flies, according to Bishop David Towers, chairman of the Monmouth exhibition board and of the management board. Most of the newcomers will be placed on the land immediately on arrival.

## Invents Instrument To Analyze Brain Power

German Scientist Calls New Apparatus a "Meningoscope"

The patient's skin before an apparatus resembling a medium-sized wireless set from which issue a number of wires. To the end of one of them is attached a metal rod which is grasped firmly by both hands. Some light resembling a pair of spotlights is then fitted over his head. The current is switched on, and the doctor proceeds to pass an electric rod over his head and face.

A secretary from time to time takes down figures read off the instrument by the doctor, the entire procedure lasting about half an hour.

The apparatus, by establishing electric contact with the various nerve centres of the brain, is said to register the most delicate shades of mental intensity. Dr. Hlesky subsequently draws up a report from the resultant tracings and gives his diagnosis of the case.

## Growth of Wheat Pool

The capacity of pool terminals in 1924 was 870,000 bushels; in 1925, 2,370,000 bushels; and today 17,450,000 bushels—not including those terminal space on the Pacific coast. For the week ending August 31st, 560 farmers in Saskatchewan decided to pool their wheat and signed up 70,187 acres. In addition, 135 new elevator grain contracts were received, covering 5,642 acres.

## Experimental Telephone Lines Between Engines and Trains

Long freight trains have proved effective time-savers in operation of the trains, according to officials of an eastern railway.

## Missive Somebody In

Intimate the law now. Pansy, this chair is covered with dust. Maid: Wob! wadum, what can you expect. Nobody has sat in it for weeks!

Poverty is one of the crimes for which a man is sentenced to hard labor for an indefinite term of years.

1409

A Smart All-Day Frock

The combination of materials offers limitless possibilities for the modern fashion designer. The frock, which has both sides of the front buttoned into a narrow velvet, and has a simple convertible collar and thin waistline. The skirt is plain at the back and gathered in front between the points of the bodice. The long full sleeves are gathered into narrow wrist bands. No. 1409 is for misses and small women, and is in sizes 16, 18 and 20 years. Size 18 years (34 inch) requires 2 1/2 yards 36-inch figured material, and 3 1/2 yards plain (no tracing); or 2 1/2 yards if made all of one material. 25 cents.

Our new Fall Fashion Book, illustrating styles, will be of interest to every home dressmaker. Of the book 10 cents the copy.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is given, the baby may be beyond all human help before the mother realizes it. In summer the reason when diarrhoea, colic, indigestion, and other ailments are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and help baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Wm. Williams Medical Co., Brockville, Ont.

Gross agricultural wealth of Canada at the end of 1925 was \$7,832,420,000, an increase of \$22,648,000 over that of 1924, according to a bulletin of the Canadian Government bureau of statistics.

Bathers are women's right and women are women's rights.

## FOR "Cholera Infantum" MOTHERS SHOULD USE

This valuable preparation has been the standard for over 30 years, and has no equal for effecting the result, purging and dissolving of cholera infantum.

Put up only by The T. Millers Co., Limited, Toronto, Ont.

## The "Dead Point" in Canadian Progress

By C. W. Peterson

The Great War and its aftermath of economic misery in Europe demonstrated the dire social effect of over-population in highly developed countries. Nature, however, has a way of effectively compensating for such conditions, and we are now witnesses of the operation of this natural process in the rapidly falling birth rate of the more advanced countries of the world.

It is, however, an open question whether such over-population brings in its train greater economic evils than under-population in a undeveloped country of such enormous extent as Canada.

A young country of vast natural resources obviously faces difficult problems of administration. Such resources lie dormant until the magic touch of man and capital render them available. And until they are made available and contribute to the national wealth they cannot be taken seriously as an asset. All this involves the opening up of the country with the concomitant in terms of great expenditure on transportation facilities of various kinds and for providing such amenities, will attract the homelaborer and capital, Governments and municipalities are consequently faced with perpetual demands on public credit and resources, all of which add to the burden of taxation. If this, in turn, becomes too high, it acts as a serious deterrent to capital and immigration.

New countries, therefore, normally gravitate "between the devil and the deep blue sea," until they successfully overcome the "dead point" in the revolution of progress through reaching a balance between the cost of the land and the cost of the labor. It is approximately sufficient to absorb the abnormal overhead inseparable from each state of development and to make a truly modern inland scene the fact that the fertility of the soil can be increased by man's hand.

There is the whole of Mississippi that has been transformed into a garden into a desert. Where once there were fertile lands, now there are barren fields with fruitless gardens and luxuriant cities, there are now in the land of the Pacific and the Pacific a few headlands of people, and all the fertility of the country has disappeared. Irrigation channels which have made the land have been gradually filled with drifting sand, and one of the most populous and fertile centres of the world has become a desert. In Palestine the same thing may be seen. Under Turkish domination the character of the soil changed. In many places, where in ancient days the little were turned to the top, the swaying rains have had their way which the soil has been carried off leaving only rocks to glitter in the little pools. (Associated Press.)

After Four Hundred Years

Basilica in France Dedicated To John of Arc

The Basilica within-King Charles VII. vowed he would build it. John of Arc succeeded in driving the English out of France as she pronounced him a heretic. In 1412, the English had been driven out of the national heresy.

King Charles VII. failed to fulfill his promise. It was not forgotten, and the little Lorraine village was again with flags for the ceremony which began with ecclesiastical pomp. The church was built in 1412, and in 1912, in building. It is ornamented with frescoes of the chief events in the life of the great saint who was canonized in 1909. The church is considered a work of art worthy to rank with any in the nation's collection.

The church faces the little house on the hill where Joan was born and overlooks the Valley of the Meuse, where in the Great War the contents of Joan's day also fought for the delivery of France from foreign occupation.

## Ticket Includes Insurance

Passengers on German Aeroplanes Are Well Protected Against Accident

Every time a traveler goes up in air on one of Germany's seventy-five aeroplanes routes he is insured for \$6,000 at the expense of Lufthansa, the company which operates these routes. Flying in Germany is regarded quite as safe as travelling by train or motor car. The insurance companies which Lufthansa has contracted for the insurance of passengers guarantee the usual accident rate, without the supercharge customary in the case of "extra-hazardous" occupations.

According to official statistics the percentage of safety in aeroplanes flights during 1925 was 99.99 per cent. Thus far during 1925 not a passenger has been injured.

## Granting Of Titles

Canadian Bar Association Favors Restoration of Custom For Canadians

A resolution regarding the action of the Canadian Parliament in passing a resolution requesting His Majesty the King to confer, on no more titles or honors on subjects of His Majesty residing in Canada, which was presented by F. E. Atholstons, K.C., of Toronto, and seconded by R. O. Delorme, K.C., of Montreal, and referred to the resolution committee, was one of the features of the opening session of the thirteenth annual meeting of the Canadian Bar Association, held at St. John's, N.S.

## Non-Stop Elevators

Some of the taller buildings at Stockholm are being equipped with non-stop elevators. They move slowly and continuously from floor to floor. The passengers must leap in and out.

# MILK BOTTLES THAT SPEAK

Let your milk bottles say "Good morning" to your customers. Appleford caps, bright and cheery, tell each customer of the purity and quality sealed within. As an advertising medium, Appleford caps are unexcelled. Their clear-cut printing reflects the cleanliness of your dairy. We will make a distinctive design which will help also to sell your other products such as butter or ice cream.

Appleford COUNTER CHECK BOOK WESTERN AGENCIES, 250 McDermott Ave., Winnipeg

Curfew Law in Chicago

Chief Goes Forth That Gives Much Trouble to Children

Time turned back a generation or two to Chicago, a sophisticated city of 2,000,000 revived the curfew law of its innocent infancy days, not only to stop the style of the reigning generation, found enforcement a matter of considerable difficulty.

All unaccompanied boys and girls 16 years old or under must be off the streets at 10 o'clock, the city fathers have ruled, in an effort to end a long record of attacks and kidnappings, and 2,000 cops were sent forth to enforce the edict.

Then their troubles began for they claimed that with the prevailing mood of short skirts, rolled hems and bobbed hair they were unable to distinguish children from prostitutes. Several married women, well over twenty, were taken into custody as "children," while two married mothers who stopped "kids" were indignantly informed that their ages were over the curfew limit.

Parks were ordered closed at 10 p.m. and county highway officers patrolled county roads and lovers' lanes. "You must be a little more dignified," said Chief of Police Connelley. "Not that we want to be old-fashioned, but during a caution sense measure to check dangers to themselves."

## Answer to Last Week's Puzzle

Answer to Last Week's Puzzle: CALIFORNIA, ARIZONA, ALABAMA, ARKANSAS, KENTUCKY, MISSISSIPPI, LOUISIANA, MISSOURI, ILLINOIS, INDIANA, OHIO, PENNSYLVANIA, MARYLAND, DELAWARE, VIRGINIA, NORTH CAROLINA, SOUTH CAROLINA, GEORGIA, FLORIDA, ALABAMA, ARIZONA, CALIFORNIA, ARKANSAS, KENTUCKY, MISSISSIPPI, LOUISIANA, MISSOURI, ILLINOIS, INDIANA, OHIO, PENNSYLVANIA, MARYLAND, DELAWARE, VIRGINIA, NORTH CAROLINA, SOUTH CAROLINA, GEORGIA, FLORIDA.

## Swindled

Farmer Cornbridge "Was that new-fangled incubator you bought much of a success?"

Farmer Newbolder: "Success? I've had the thing thing thing in the hen house for three weeks and there ain't a sign of an egg in it—let alone a chicken!"

## A Famous Man

The originator of Dr. Pierce's Golden Medical Discovery for the blood, as well as the "Favorable Free-Press" for women, was Dr. J. C. Pierce, a practicing physician in Western Pennsylvania. He early moved to Buffalo, N. Y., and established the Inland Hotel, then he put up his home near the city of Buffalo. He was a famous man, and his name was on the lips of all who knew him.

For over half a century, Dr. Pierce's Discovery, for the blood, has been sold in large quantities by druggists than any other medicine. It is a tonic in its action on the stomach and digestive apparatus, an alternative in its action on the blood, liver and skin. It increases the strength of the system, cleans the complexion, clears the skin of eruptions, and makes the hair grow and makes men and women feel as they did when they were young and care free.

Ask your druggist for Dr. Pierce's Discovery, or send 10 cents for a trial package of tablets to Doctor Pierce's Laboratory in Hillsdale, N. J.

## RED DICTATION IS PRESENTED BY BRITISH LABOR

Bournemouth, Eng.—Two sensational incidents occurred at the meeting of the Trades Union Congress, which is sitting here this week. Strong resistance was displayed by the Irish trade union body at the attempt of W. A. Huddell, a Moscow labor delegate from the British Government refusal to permit in England, to impose the Soviet standard of criticism on the conduct of the late general strike. The second was the hostile reception by the miners' delegates of the railway representative, J. Bromley, although he put forward to plead their cause.

The Tomsky incident arose out of the circulation among the delegates of an abusive telegram, signed ostensibly in behalf of the all-Russian central council of trade unions by Tomsky, attacking the British Government, which it accused of admitting representatives from the United States and the United States Federation of Labor while denying admission to representatives of the Soviet workers, who were "driving their agents to hold their class brothers in this great fight."

The general council of the Trade Union Congress, attacked in the document a rejoinder, declaring that it would not permit to "this ill-instructed and unscrupulous criticism." J. H. Thomas and other English trade leaders were also attacked in the Soviet telegram. "The general council declared emphatically that it would not 'countenance an intolerable interference in British trade union affairs,' nor would it permit the position of a fraternal delegate to be 'graded into a trade against representatives of the British movement.'"

## Studying Industrial Conditions in Canada

Sir William Mackenzie Heads Mission Sent by British Government

London.—Sir William Mackenzie has left London for Canada as head of an industrial mission sent by the British government to study industrial conditions in Canada and the United States. He will first go to Ontario to consult with the Canadian department of labor, and then visit the principal industrial towns throughout the Dominion, right to the Pacific Coast.

After his Canadian tour, he will visit the United States and return to England via Canada. He is being sent by the British ministry of labor to investigate particularly the character of the relations between employers and employees in various industries in Canada and the United States. Mackenzie, commander and a knight of the British Empire, Sir William is said to be the greatest expert on industrial relations in Great Britain, and has been on a score of arbitration and industrial commissions.

## Trade Council Will Include All Canada

Convention Next Year Is To Be Held In Victoria, B.C.

Seattle.—Inclusion of all Canada in the Pacific Foreign Trade Council was announced after a conference here between Canadian officials and commercial leaders and representatives of the council. The next convention of the council is to be held in Victoria, B.C., on September 15, 16 and 17, 1927.

Heretofore the coast trade growth, which constitutes the main portion of the National Foreign Trade Council, has included only six states in this country. Under the new scheme British Columbia and all the other Canadian provinces, it is hoped, will unite their strength with the coast in meeting problems of mutual shipping and commercial interests.

## On Coast To Coast Flight

Boston, Mass.—Two college girls left the Boston airport to passengers in an aeroplane on a scheduled trans-continental flight. If successful, they will be the first of the new generation to cross the continent by air. The girls, Margaret C. Sheehan, of Manchester, N.H., and Helen A. Park, of Brooklyn, N.Y., were winners in an essay contest.

## Miss Sprenger Missing

San Diego, Calif.—The British government has appealed to the commander of the eleventh naval district here to aid in a search for the missing British mine sweeper, *Thetis*. The ship was due here 11 days ago.

## Canadians Serve On League Committees

Representatives Have Been Appointed On Six At Geneva

Geneva.—Canada secured representation on all six committees of the League of Nations assembly.

Sir George B. Foster serves on the committee, which deals with vital and constitutional questions. Sir George is also a member of the sixth committee, along with Irish trade union leader at the attempt of W. A. Huddell, a Moscow labor delegate from the British Government refusal to permit in England, to impose the Soviet standard of criticism on the conduct of the late general strike.

The second was the hostile reception by the miners' delegates of the railway representative, J. Bromley, although he put forward to plead their cause.

The Tomsky incident arose out of the circulation among the delegates of an abusive telegram, signed ostensibly in behalf of the all-Russian central council of trade unions by Tomsky, attacking the British Government, which it accused of admitting representatives from the United States and the United States Federation of Labor while denying admission to representatives of the Soviet workers, who were "driving their agents to hold their class brothers in this great fight."

The general council of the Trade Union Congress, attacked in the document a rejoinder, declaring that it would not permit to "this ill-instructed and unscrupulous criticism." J. H. Thomas and other English trade leaders were also attacked in the Soviet telegram.

"The general council declared emphatically that it would not 'countenance an intolerable interference in British trade union affairs,' nor would it permit the position of a fraternal delegate to be 'graded into a trade against representatives of the British movement.'"

## Would Take Drastic Action If Necessary

British Government Is Ready To Assist Mine Workers

London.—The decision of the mine owners to reject the various offers of the government to negotiate with the miners' union, has been met by the British government with a statement that it would take drastic action if necessary. The statement was made by the British minister of labor, J. H. Thomas, in a speech to the House of Commons.

The official report of the proceedings of the conference, as headed by the government, was carefully edited for public consumption, but it is understood that Churchill during the meeting expressed himself with force and emphasis and told the owners that it was impossible for the government to allow more strikers on their part to prevent a settlement. If the miners were willing to make real concessions, he would help them to do so.

## Report Is Encouraging

Selected Immigrants Making Good Says Overseas Representative

Windsor.—Under the selective plan of immigration, the families being brought to Canada from Great Britain are proving themselves willing farmers, and are making good, according to Rev. J. W. Williams, overseas representative of the British settlement service.

In connection with the activities of the service in Great Britain, Mr. Williams stated that lack of interest and lack of money were the two great obstacles which have to be overcome by those who are immigrating to Canada. He considered that the former problem would be met gradually as those who have immigrated get on their feet, but that the second difficulty is one of economies which can only be adjusted by some form of legislation or a general betterment of conditions that is not apparent at the present moment.

## Working On Bay Line

First Train Into Kettle Rapids Expected About Sept. 20

Regina.—The Hudson's Bay Railway, according to information received here by the On-to-the-Bay Association, is being pushed on. A major part of Le Pas station in a letter to the association that bridges are completed at Livingstone and Ardenburg, the first train into Kettle Rapids, which is the present end of the steel, 92 miles from the bay, is expected around September 20.

## Encourage British Emigration

London.—In a letter to the Morning Post, Lady Aberdeen suggests a plan to encourage British emigration to Canada, namely that brothers and sisters of all classes should be encouraged to follow their land grant, take service with neighboring farmers and learn farming and the customs of the country while waiting for the erection of their home and the preparation of their farm.

## Trying To Cut Veldt

Managua, Nicaragua.—German engineers are engaged in the unique task of trying to put a stop to the volcanic Masaya, which is near the town of that name. They seek to check the crater so that its poisonous gases will not escape and damage the crops.

## Trouble In Spain

Belief Is Expressed That Revolt Is Only Delayed

London.—Unrestrained speeches from Spanish correspondents of some of the London morning papers represent the trouble in Spain rather as having been postponed rather than definitely over by authority.

A dispatch to the Daily Express from Barcelona reports that the army in Spain has been split in two, that there have been incidents throughout the country and that the navy is exhibiting anarchy.

Hundreds of apprehensive Spaniards are said to be fleeing from France to meet their capital there.

## Wrecked German Express

Two Unemployed Men Caused Death Of Twenty-two Passengers

On Schlegel, near Witten, Westphalia, an explosion of having caused the disaster to the Berlin-Goslar express near Lohr on August 15, in which 22 passengers were killed, and said to have caused.

The police assert that the men said they tore up the track with the intention of derailing the train, but that when the wreck occurred they were so late that they fled, abandoning the chance to plunder the coaches.

## WOULD DEVELOP A DISTINCTIVE CANADIAN SPIRIT

OTTAWA.—Canadian club members should do their part to develop a distinctive Canadian spirit, C. D. Cowan, of Ottawa, president of the Association of Canadian Clubs, in welcoming the delegates to the opening session here of the 11th annual meeting of the association.

Mr. Cowan, in his presidential address, said that the tradition and spirit of the British Empire, but that was no reason, he pleaded, why Canadians should not develop an individuality. It was not necessary, argued Mr. Cowan, that Canadian institutions should be simple imitations of other British or American ones.

Mr. Cowan, as the policy is considered efficient in encouraging racial and sectional prejudices. "You must be better heard, Mr. Cowan went on, quoting the remark of a recent writer of cost and value on Ontario and Quebec, and not enough is being heard of Canada."

It was announced that preparations are being made for an adoption celebration next year of the sixtieth anniversary of Confederation throughout the Dominion. There will be a celebration in the capital, said Mr. Cowan, and also throughout the provinces, and the Canadian Clubs will be asked to take definite steps in that connection.

## Continue Customs Probe

Inquiries In Maritime Provinces Finished

Montreal.—The royal commission investigating the administration of the customs department has now finished its inquiries in the Maritime provinces and will probably proceed at the beginning of next month to Vancouver. It was started by R. L. Calder, C.E. counsel for the royal commission.

After Vancouver the commission will proceed to Windsor, Ontario, and Toronto.

## She Dances to the Waterfall

The wonderful setting of the little waterfall known as the Glams Falls, Paradise Valley, near Lake Louise, apparently inspired with the writer of the poem of the water and the soft whistling of the bird-like hummingbird in the woods around. She was photographed while dancing in the music of the waterfall.

## BRITISH MARINES ARE KILLED BY CHINESE TROOPS

Shanghai.—Three British naval officers and four seamen were killed and five officers and thirteen seamen wounded by Chinese troops of Wu Pei Fu's northern army at Wanchow Creekman province, 1,200 miles from the Yangtze River. The British naval officer Commander returned the fire, doing considerable damage to Wanchow, a city of 120,000. How many Chinese were killed or wounded is not known.

The conflict was begun when a British naval party of fifty men on a river boat attempted to relieve the British sailors, the Wanchow and Wanchow, who had been killed by Chinese troops. The British party, which consisted of five officers and thirty-five Chinese sailors, August 29, when the British steamer Wanchow, in attempting to escape from Chinese capture, upon three active boats.

The British killed were: Commander E. P. Harley and Lieut. A. Higgins, of the gunboat *Delphic*; Lieut. C. F. Ridge of the gunboat *Cerberus*; and Seaman Farnham, Russell, Marshall and Farrow.

The Chinese force was commanded by General Yang Sen, an adherent of Wu Pei Fu, war lord of the central provinces, who was at Hsinchow, hundreds of miles distant, defending himself against Cantonese forces. Yang's men had asked the British officers and seamen to surrender, and threatened to fire upon the officers of the gunboat *Cerberus*.

The British retired but the next day, September 6, the small river steamer *Klaxon*, with forty men of British gunboats aboard, was engaged in a battle with the Chinese. The British killed were: Commander E. P. Harley and Lieut. A. Higgins, of the gunboat *Delphic*; Lieut. C. F. Ridge of the gunboat *Cerberus*; and Seaman Farnham, Russell, Marshall and Farrow.

The British party, under fire, attempted to approach the steamer *Wanchow* but twenty-two of the forty men of the British party were killed or wounded. They stood by, however, with their unprotected boats while the *Wanchow's* officers hoped they would be rescued after they were in the water except Chief Boatswain Johnson, who was wounded or drowned.

The British gunboat *Cerberus* then bombarded the city of Wanchow. Its shells doing much damage, with an undetermined number of Chinese casualties.

## Germany Now IS A MEMBER OF THE LEAGUE

Geneva.—Germany with Imperial unanimity was elected a member of the League of Nations, and was thus added to the roster of nations.

The League of Nations, which was founded in 1919, is a permanent organization for the maintenance of peace. It was created by the Treaty of Versailles, which was signed in 1919. The League has a permanent secretariat in Geneva, and its main organ is the Council of League, which is composed of representatives of the member states.

## Oppose Wage Increase

Railway Companies Present Their Case In Wage Dispute

Montreal.—Maintaining that the present cost of living and the rates of new law in evidence as they affect conductors, trainmen and yardmen on the C.N. and C.P.R. do not justify an increase in wages, representatives of the railway companies presented their case to Mr. Justice Hugh T. Kelly, of Toronto, and the two colleagues on the board of arbitration and conciliation now at (pending to arrive at a settlement in the wage dispute between employees of the two railways and their employers.

The railways point out that railroading rates were established by a board of conciliation in 1921 and that since that time the railways have suffered substantial reductions in passenger and freight rates and the cost of living has also decreased somewhat.

The existing wage scale, they point out further, is the outgrowth of conditions developed during and subsequent to the war.

With regard to the present appeal of the railways, they claim, are the highest "paid classes of railway employees in the Canadian service, the joint statement of the companies points out that the appeal is identical in all respects with those already submitted to and declined by the United States courts.

## First Message Between Irish Governments

Ulster Expresses Sympathy With Free State Over Cinema Tragedy

Drogheda, County Limerick, Ireland.—Forty-eight of those who perished in the fire which swept a cinema building in Drogheda, a town of 15,000 people, were of the same common grave. Twenty-eight of them were charged beyond identification.

Drogheda, Ireland.—For the first time in history a message of sympathy has passed between the two Irish governments.

Finance Minister Hugh Patrick, acting in the absence of Premier Craig, telegraphed President O'Grady, of the Free State, to express sympathy for the victims of the cinema tragedy at Drogheda.

The Free State government, in reply, expressed sympathy for the victims of the cinema tragedy at Drogheda.

## SAYS WAR DEBT QUESTION IS NOT TO BE REOPENED

Quibber.—That England as some public opinion in Ireland was concerned, the problem of Great Britain's war debt to the United States was not to be reopened.

The British Government, regarding the matter was the statement made by Mr. Doolan, Sir Edwin Howard, K.C., C.Y.O., a British ambassador to the United States, who is in Quebec for a brief visit.

"The only thing I can say," declared Sir Edwin, when asked regarding the current debt cancellation rumors, "is to repeat the recent statement of Sir Austin Chamberlain, British secretary of state for foreign affairs, that is that the question has been settled and that it is not to be reopened. Everyone in England intended to pay the debt as long as there is a possibility of paying and there seems to be no objection why it should not be paid in its entirety."

Sir Edwin declared that he had no information regarding the appointment of a Canadian ambassador to the United States. He reported, however, that he has been often asked in the past, that he had no objection whatever to the appointment of such a minister.

## New Motor Fuel

Experiments Show That Grain Dust Runs Auto Engine

Washington.—Grain dust taken from a grain elevator has been found to have sufficient explosive power to run an automobile engine. Department of agriculture chemists, who had previously announced that while the engine did not make any prolonged continuous run, enough power was developed with the dust to turn it over many times.

A hand system of feeding the dust through a tube to the intake valve was employed. The chemists said the smoke gave "encouraging results which indicated the possibilities of developing a motor fuel from grain dust as the source of fuel."

The chemists said the smoke gave "encouraging results which indicated the possibilities of developing a motor fuel from grain dust as the source of fuel."

## A Handsome Request

Late Baroness Strathcona Left Edinburgh Hospital \$121,500

Edinburgh, Scotland.—The will of the late Baroness Strathcona, who died on August 15 last, which was first at Register House here, is dated November 17, 1925, and includes, among other pious bequests, one of \$25,000 (about \$121,000) to the Royal Victoria Hospital, Montreal.

Baroness Strathcona was a daughter of the late Lord Strathcona, first earl of Strathcona in the Royal Victoria Hospital, Montreal.

## Local and General

Art Anderson, of Calgary, was a visitor in town on Monday and Tuesday.

The Ladies Aid met at Mrs. Fisher's last Thursday with a large attendance.

Mrs. D. Watkins and Mrs. C. Cowell attended the wedding of Miss Leonie Cowell, at Lethbridge, on Tuesday.

Mr. and Mrs. Royal Ruggles were recent arrivals at the Guest Ranch from Minnesota, where they have spent the past year.

Mr. and Mrs. A. McCullough returned last Thursday from a motor trip to Golden, B. C., leaving Bobbie for a few months to recuperate.

The millinery opening in Mrs. Therriault's store on Tuesday and Wednesday was a big attraction for the ladies. Many beautiful hats were shown and a large number sold.

While on two occasions, at least, there have been frosts in this vicinity, but very little harm has been done, even to the flowers, until Wednesday night. Then everything froze.

The prize list of the fall stock show and sale, to be held at Calgary November 2nd to 5th is to hand. Cattle, sheep and swine are included in the classes for which premiums are offered.

Lorne Church has acquired the famous Irish setter "Cappy" from the bank kennel, and is preparing him for the 1927 field trials. Cappy should achieve notoriety, at least, for Mr. Church.

The first day of the duck season drew a large number from Champion into pursuit of these fast flyers. The success achieved naturally varied considerably, but some very nice bags were reported.

Due to bad roads the Lutheran church services were dropped last Sunday. They will take place at 3 o'clock of coming Sunday instead. Holy Communion will be administered, and all confirmed Lutherans wishing to partake are asked to announce themselves to the pastor at least before the service. You are welcome to attend.

The Alberta government takes over the E.D. & B.C. railway from the C.P.R. on November 11th.

The Meighen government will tender its resignation on Monday, after a meeting of the cabinet is held.

A boxing contest is advertised to take place in McCullough's hall on Saturday evening September 25th.

Frank Johnson, who had been improving considerably recently, is again suffering severely from a renewed attack of rheumatism.

C. Schroeder manipulated the road maintainer to good effect on the main street on Thursday and it is now reasonably passable.

Aimee Temple McPherson, Los Angeles evangelist of kidnapping fame, has been arrested, charged with a conspiracy to defeat justice.

While Alberta seems to have produced the first snowstorm weather conditions are bad all over Saskatchewan and Manitoba, where there have been heavy rains. As a consequence the price of wheat is soaring.

M. G. Clever was in town during the week and looked over a lot of grain in the vicinity. He expressed the opinion that the damage from wet weather is very much exaggerated in most instances.

Born—On Thursday, September 9th, to Mr. and Mrs. F. W. Steeves, a daughter. The congratulations should also include J. A. Ruggles of the Guest Ranch, who, for the second time, is a grandfather.

One hundred students have been secured for the Raymond school of agriculture, which will in consequence be operated during the coming year. The government insisted this number of students must offer if the school was to be opened.

Bad roads and weather resulted in a small turnout at the Conservative meeting on Thursday evening, Sept. 9th. W. J. Douglas was the principal speaker. A. C. Scratch, the candidate, was late in arriving, but took up the question of the return of the natural resources which he blames E. J. Garland for impeding.

## Thieves Make Haul From Local Store

F. J. Clapp's store was broken into on Wednesday night and goods to the value of \$125 were stolen. The articles taken were almost exclusively confined to clothing, but included two club bags, in which the plunder was presumably carried away. Entrance was gained by breaking a window at the back of the store. The police have the matter in hand.

## Threshing Expected Early Next Week

While the northern part of the province is blanketed with snow there were only little flurries in this vicinity which did no harm, and the cold weather of the past few days has assisted in drying the stocks, and at the same time checked the tendency towards sprouting. Some of the threshing outfits are preparing to start on Monday, but the general opinion seems to be that unless the weather is exceptionally favorable a day or two longer will be required. So many men have left that a serious shortage of help is likely to develop when threshing is possible.

## CHURCH BULLETIN SUNDAY, SEPT. 19

11 a.m.—Sunday School.  
3 p.m.—Blusson, preaching service.

7:30 p.m.—Champion, preaching service.  
Pastor's subject: "What is Religion?"

The Vulcan school fair takes place on Friday, Sept. 21th.

The Dominion parliament is expected to meet about Nov. 20 and with a long Christmas vacation conclude at Easter.
